

ULTIMATUM

Is Sent to Russian Duma
by Premier Stolypin.

WILL BE REJECTED.

Suspension of 55 Members Accused
of Plotting to Overthrow the
Government Is Demanded.

St. Petersburg, June 15.—The dissolution of the lower house of the Russian parliament appears to be a question of only a few hours, or at most of a day or two.

With only 130 opposing votes the lower house last night rejected Premier Stolypin's ultimatum for the immediate suspension of 55 deputies for membership in the social democratic party and referred the subject to a committee. Although the committee has been instructed to report this evening, it is known in advance that the decision on the main question will be adverse, and that the duma will accept the recommendation.

In order to keep strictly within the legal limits, the committee may recommend the suspension of 16 leaders on condition that the government disclose the evidence against them, but there is not the slightest expectation on either side that this will save the situation.

An extraordinary session of the council of ministers was held last night to discuss the decision of the lower house. Up to a late hour no report had been received of the doings of the council and no decree of dissolution had been issued. The general impression is that no edict would be promulgated pending final action by the lower house.

Premier Stolypin demanded that the lower house of parliament exclude from the house all the members of the social democratic faction, numbering 55, and sanction the arrest of 16 of their leaders on the charge of entering into a conspiracy to overthrow the government and establish a democratic republic. The premier announced that unless the house immediately yielded parliament would be dissolved.

Simultaneously with the delivery of the government's ultimatum, squads of police took possession of the lodgings of all social democratic deputies and seized their papers, evidently prepared to make arrests so soon as the decision of the house became known.

The session of the St. Petersburg committee of the social democrats was attended by a large number of the accused deputies. The committee is discussing a proposal to proclaim a general strike in the capital. This meeting is being held in secret, the police having occupied the headquarters of the party. Remembering the fiasco of the strike called after the dissolution of the last duma, the committee is hesitating to adopt this measure, although delegates from the workers in all quarters of the city report that the conditions are ripe for a successful industrial strike and that there is a possibility of extending the movement to the railroads centering in St. Petersburg.

Huge Raft Caused Destruction.
Huntington, W. Va., June 15.—Over 700,000 saw logs, valued at \$2,000,000, the largest gorge of timber ever known in a West Virginia stream, broke loose two miles up the Guyandotte river last night and swept out everything in the river that came in its path. Booms, fleets of timber and small craft of every description were carried before the gorge. A large iron bridge across the Guyandotte river, at its mouth, valued at \$75,000, was destroyed and five massive stone piers built into the river to protect the boom of the Guyandotte Timber Co. were swept away.

A Famous Agreement Is Abrogated.
New York, June 15.—The agreement between the Harriman interests and the Rock Island Co. entered into in 1904, for the ultimate control of the Chicago & Alton railroad has been abrogated by mutual consent. In the future the Chicago & Alton stockholders will manage the property. Under the agreement which has been abrogated the Rock Island Co. and the Harriman interests alternately controlled the Chicago & Alton, the Rock Island being in control one year and the Harriman interests the next. The plan would have lapsed in 1914.

State and Federal Courts Clash.
Kansas City, June 15.—Upon application of Attorney General Hadley, Circuit Court Judge Parks on Friday issued orders upon the representatives here of 15 Missouri railroads compelling them to obey the two cent passenger rate and the maximum freight rate bills which went into effect Thursday night. This brings the circuit court into conflict with the United States district court, before which the railroads are suing for an injunction to prevent the state officials from enforcing these laws.

Floods Caused \$300,000 Loss.

THE HAYWOOD TRIAL.

Prosecution Adduces Evidence to Corroborate Harry Orchard's Testimony.

Boise, Idaho, June 15.—The prosecution in the Steinberg murder trial Friday, entering on the corroboration of Harry Orchard's testimony showed a continuous thread of evidence connecting George Pettibone's store in Denver with Orchard at San Francisco while engaged on the Bradley murder plot, partly developed another direct line by which it is hoped to show that Haywood engaged and paid Steve Adams for the same desperate work, and added special touches of confirmation to Orchard's general story.

Officers of the postoffices at San Francisco and Denver produced records showing that in August, 1904, a registered letter was sent under the name of "J. Wolf" from the address of Pettibone's store in Denver to "J. Dempsey" at the Golden West hotel in San Francisco. Orchard swore that he stayed at the Golden West hotel under an alias that was either "Dempsey" or "Hogan," that Pettibone used the aliases of "Wolf" and "Pat Bone" and that under the name of "Wolf" Pettibone in the month mentioned sent him a registered letter containing \$100 to pay his expenses while attempting to kill Bradley.

Police officers of Ogden established the arrest there in June, 1905, of Steve Adams and A. T. Williams. They were seized in a car loaded with fruit. When arrested for trespass, each had a brace of revolvers. When released through the influence of a detective to whom Adams appealed as a Mason, they went straight to the office of the Western Union and sent a telegram to Haywood in Denver.

Harrisburg, Pa., June 15.—How John H. Sanderson, of Philadelphia, collected \$5,000,000 from the state for furnishing the new capitol under his "per foot" and "per pound" contract was told to the investigation commission Friday in the report of the commission's auditors. The report says that elaborately trimmed desks for the heads of departments were charged at \$368 each, while plain desks for clerks were billed as high as \$619.25. Taft's Illness Was Brief.

St. Paul, Minn., June 15.—Made sick for several hours of acute indigestion as a result of a long series of banquets, Secretary of War Taft last night braved a dollar dinner to which he sat down at the Auditorium with 2,000 diners whom he had kept waiting nearly two hours in order to recover from the sickness that attacked him during the afternoon at Fort Snelling, where he had reviewed some troops. He made a short speech in relation to the Panama canal and was cheered by the audience.

Woman Suffragists Win in Norway.

Christiania, June 15.—The Norwegian parliament on Friday rejected the bill providing universal suffrage for women, but adopted a bill granting the franchise on the same conditions as in the case of municipal elections, namely, that women themselves, or their husbands, in order to be entitled to vote, must have paid taxes for a year. The new law gives the suffrage to all women 25 years of age taxed on an income enjoyed by herself or her husband of \$115 in cities and \$84 in the country. It creates a total of 800,000 women voters.

The police say they have found a mysterious note in male handwriting, believed to have been written by the girl's lover, who had taken her to the circus the night before. It is said Miss Botkin was then suffering from a headache, and that it is possible she was given the carbolic acid as a headache cure.

Friday morning 100 more arrived, and Rev. Levi Lupton, head of the "gifted tongues," says hundreds more are on the way. When Lupton advertised a camp meeting he announced "The Lord will provide." But groceries and bedding have not been distributed with a lavish hand. There is even a dearth of straw.

A PRICELESS GIFT

Is That of Vital Magnetism, as Pos-
sessed and Daily Exemplified
by the Famous Boy
Phenomenon.

Whose Many Remarkable Cures
Marion Positively Prove Its
Potency and the Permanen-
cy of His Cures.

Having Discharged so Many as Per-
manently Cured, He Now Has
More Time to Devote to New
Patients, and Has Therefore
Extended the Reduced
Prices of Treatment One
Week More.

The advent of the Boy Phenomenon the young exponent of Vital Magnetism, has stirred this city to its very foundation, and the great stone wall of skepticism that stood like a huge barrier in front of the sick three weeks ago has been dashed aside by the tidal wave of popular approval which has been imprinted on the work of this great healer as day after day two and sometimes three and four of our oldest and most respected citizens have come forward in the daily papers and made public statements of their wonderful relief and cure.

In scientific circles the work has been taken up as a live topic of discussion, and among the medical fraternity there are few who have not given the subject of the application of Vital Magnetism in the curing of disease deep thought, and been forced to admit that his remarkable cures are beyond their comprehension.

Think of it, ye who still follow the old fashioned way of noxious medicine, of experimenting methods, and the ever ready surgeon's knife. Here is a system which in the past three weeks has accomplished the positive, permanent cure of 49 cases of the most baffling sort, every one of whom had doctored for years and spent hundreds of dollars in a vain search for relief, only to be told in the end they were incurable. But the Boy Phenomenon has cured them not helped them, but in all that the word signifies, has positively and permanently cured them, many of whom are so grateful that besides paying for their treatment they are requesting their testimonials published.

Life and health in the human system means that the body is supplied with a sufficient quantity of Vital Magnetism. Sickness and disease, on the other hand, show that the supply is exhausted and an entire absence of it means death. Vital Magnetism, then, is the one great spark of life and health that makes rich, red blood, rosy cheeks and the robust appearance which medicines cannot give. Its magnetic influence permeates every nerve, rejuvenates the body, awakens and vitalizes the nerves, stimulates the heart, puts new strength, new life, new ambition into every function and feeling that makes life worth battling for. That is Vital Magnetism—a simple and direct transference of the vital current from one whom nature has blessed with an excessive supply to one who is deficient in that element of life.

There is not a chronic disease known that renewed vitality will not benefit and in most cases positively and permanently cure, especially such diseases as weak, shattered nerves, tired brain, poor blood, debilitated system, female troubles, physical exhaustion, sleeplessness, despondency, mental depression, hysteria, paralysis, numbness, neuralgia, rheumatism, lumbago, epileptic fits, chorea, heart trouble, sciatica, headache, indigestion, loss of appetite, constipation, biliousness, kidney and liver diseases, deafness, catarrh, lung troubles, locomotor ataxia, vertigo, neuritis, nervous prostration, alcoholism and all drug habits, female troubles, barrenness, impotence, tumors, eye troubles, piles, catarracts and all diseases of the nervous system in which medicine has been experimenting for decades with what result, alas, we all know. It has been left to magnetism to startle the world with a record of cures of so called incurable diseases which has never been equaled.

Having discharged 49 cases as permanently and positively cured the past three weeks, he now has more time to devote to new cases, and as many were unable to take treatment last week owing to the large crowds he has consented to extend the time of the present low fees one more week.

therefore those who wish to be cured at the present low prices must call at their earliest convenience, as his time is being rapidly taken up. Office hours at the Majestic Hotel are daily except the Sabbath from 10 to 6 and 7 to 8 evenings.

EDDIE GUERIN GOES FREE.

Notorious Bank Robber Who Escaped from Devil's Island Cannot Be Extradited to France.

London, June 15.—Should the decision given in the divisional court Friday by the lord chief justice, Lord Alverstone, and two associates hold good, a British subject convicted of crime in a foreign country who escapes to British territory cannot be extradited. The decision was given in the case of "Eddie" Guerin, who escaped to the United States from Devil's Island, and then came to England, where he was arrested and ordered to be extradited to France by a Bow street extradition court magistrate.

Guerin formerly resided in Chicago, where he was twice convicted of crime and went to France on his release. There he was sentenced to penal servitude for life for a bank robbery in Paris and was sent to Devil's Island.

The court decided that the extradition act did not apply to the case and discharged the prisoner.

Attempts at Mutiny Failed.

Sebastopol, June 15.—Details of the attempted mutiny of the Black Sea fleet are difficult to obtain. A repetition of the Potemkin mutiny, in the middle of 1905, by the battleships Rinde and Tris Svistellu was only prevented by the fact that the rifles and cutlasses of the crew were so strongly fastened in the arm racks, the keys of which were in the captains' hands, that the mutineers were unable to gain possession of them. Both battleships have arrived here and landed 30 of the ringleaders of the mutiny.

San Francisco, June 15.—Mayor Schmitz, convicted of the crime of extortion, on Friday asked Judge Dunne for release on bail until sentence is pronounced, June 27. The request was denied. The judge ordered that the mayor be jailed. District Attorney Heney, referring to the future government of San Francisco, said: "As a result of the conviction of Mayor Schmitz, he will be unable to perform the duties of his office. Therefore the chairman of the finance committee of the board of supervisors will be acting mayor."

Woman.

Woman is like a flower and needs gentle warmth and congenial surroundings to bring out her best points. Mah, like the oak, may be hardened and tempered by the cold winds of adversity—though not all men can stand this very severe test, but undoubtedly, warmth, physical and sentimental, is wanted to allow the fair sex to blossom forth in all its delicate beauties of mind, body and spirit.—The Queen.
